File: AGENTS.md (5 lines)

```
1 | <!-- BEGIN:nextjs-agent-rules -->
2 | # This is NOT the Next.js you know
3 |
4 | This version has breaking changes – APIs, conventions, and file structure may all differ
   |   -> from your training data. Read the relevant guide in `node_modules/next/dist/docs/`
   |   -> before writing any code. Heed deprecation notices.
5 | <!-- END:nextjs-agent-rules -->
```

File: CLAUDE.md (1 lines)

```
1 | @AGENTS.md
```

File: README.md (36 lines)

```
1 | This is a [Next.js](https://nextjs.org) project bootstrapped with [create-next-app](ht
2 |   -> tps://nextjs.org/docs/app/api-reference/cli/create-next-app).
3 |
4 | ## Getting Started
5 |
6 | First, run the development server:
7 |
8 | ```bash
9 | npm run dev
10 | # or
11 | yarn dev
12 | # or
13 | pnpm dev
14 | # or
15 | bun dev
16 | ```
17 |
18 | Open [http://localhost:3000](http://localhost:3000) with your browser to see the result.
19 |
20 | You can start editing the page by modifying app/page.tsx. The page auto-updates as you
21 |   -> edit the file.
22 |
23 | This project uses [next/font](https://nextjs.org/docs/app/building-your-application/op
24 |   -> timizing/fonts) to automatically optimize and load [Geist](https://vercel.com/font),
25 |   -> a new font family for Vercel.
26 |
27 | ## Learn More
28 |
29 | To learn more about Next.js, take a look at the following resources:
30 |
31 | - [Next.js Documentation](https://nextjs.org/docs) - learn about Next.js features and AP
32 |   -> I.
33 | - [Learn Next.js](https://nextjs.org/learn) - an interactive Next.js tutorial.
34 |
35 | You can check out [the Next.js GitHub repository](https://github.com/vercel/next.js) - y
36 |   -> our feedback and contributions are welcome!
37 |
38 | ## Deploy on Vercel
39 |
40 | The easiest way to deploy your Next.js app is to use the [Vercel Platform](https://verce
41 |   -> l.com/new?utm_medium=default-template&filter=next.js&utm_source=create-next-app&utm_
42 |   -> campaign=create-next-app-readme) from the creators of Next.js.
43 |
44 | Check out our [Next.js deployment documentation](https://nextjs.org/docs/app/building-yo
45 |   -> ur-application/deploying) for more details.

17 |   category: 'Education',
18 |   content: `
19 |     Our education scholarship program has reached a significant milestone, providing access to
20 |     quality learning for over 1,200 students across rural communities in Maharashtra and
21 |     Rajasthan.
22 |
23 |     The program, launched in early 2025, partners with local schools and colleges to identify
24 |     promising students from economically disadvantaged backgrounds. Each scholarship covers tuition,
25 |     books, and a monthly stipend to reduce the financial burden on families.
26 |
27 |     "Before this scholarship, I was going to drop out to help my father in the fields,"
28 |     Arjun, a 16-year-old recipient from Nashik. "Now I'm studying engineering and I want to
29 |     build water systems for villages like mine."
30 |
31 |     The impact extends beyond individual students. As educated youth return to their communities,
32 |     they become change-makers who uplift those around them – tutoring younger children,
33 |     starting small businesses, and advocating for local infrastructure.
34 |
35 |     In the next phase, we aim to expand the program to 5,000 students across 10 states,
36 |     partnering with corporations, diaspora donors, and government schemes to create a sustainable funding model.
37 |   `,
